10 March 1972

MEMORANDUM FOR: Deputy Director for Science & Technology

SUBJECT : Research and Development

*Carl*

1. Pursuant to the discussion at the Deputies Meeting on 8 March, I would hope that we might have at least a preliminary report from the R&D Board for use in evaluating the Program requests of the various Directorates and Offices. I realize that the full system contemplated by the 8 March memorandum probably will not be available until next year. Since we will have to make many decisions, however, I would hope we could get some general thoughts on where our Program as a whole is, and particularly where it should go.

2. The Programs will be reviewed during the month of May at the Directorate level, so I would think we could reflect the R&D Board's and your comments if we had them by 1 May.

W. E. Colby
